Dear Colleague:

On behalf of SNM (formerly Society of Nuclear Medicine), I am pleased to invite you to attend the SNM 2011 Annual Meeting in San Antonio, Texas.

SNM is an international scientific and professional organization founded in 1954 to promote the science, technology and practical application of nuclear medicine. Its 15,000 members are physicians, technologists, and scientists specializing in the research and practice of molecular imaging and nuclear medicine. In addition to publishing journals, newsletters and books, SNM also sponsors international meetings and workshops designed to increase the competencies of nuclear medicine practitioners and to promote new advances in the science of molecular imaging and nuclear medicine.

With over 4,000 professional attendees expected in San Antonio, the SNM Annual Meeting has been recognized by thousands of professional attendees as the premier event for educational and networking opportunities in molecular imaging and nuclear medicine. As proven over the years, SNM strives to provide the medical community with the most up-to-date and pertinent information concerning the fields of nuclear medicine and molecular imaging. We are dedicated to the educational and networking needs of this unique community of physicians, technologists, scientists, residents, and students.

In addition to our educational programs, SNM is expecting over 150 major manufacturers of equipment, products, and services who will be on hand to help you provide the best medical care for your patients. A visit to our exhibit hall is a rewarding Annual Meeting experience and you shouldn't miss it. Only companies that provide a product or service applicable to the field of molecular imaging or nuclear medicine are eligible to exhibit. This means you can be sure your interests match the products and service showcased. Don't miss this opportunity to see demonstrations of the latest in molecular imaging and nuclear medicine technology.

During your stay in San Antonio for the SNM Annual Meeting, you will not be compensated by SNM nor can you be engaged in any employment. You will be responsible for all of your own expenses. We understand you may want to tour the San Antonio area after the Annual Meeting; therefore, your travel to the U.S. will be from approximately June 1-12, 2011.

Please visit the SNM website at www.snm.org/am for more details about the event.

Sincerely,

Peter Herscovitch, MD
Chair, Scientific Program Committee
